

**JonValer
Limited Health Warranty**

72 Hour Return Policy – Buying a puppy is a major decision, you are making the commitment to feed, house, train and care for another living being for next 10 – 15 ears. It is a big investment – financially, physically and emotionally. We understand that even after careful consideration, circumstances may come up that prohibit you from keeping the puppy. If that proves to be the case, you may return the puppy to JonValer Labradors within 72 hours for a refund. Original deposits are not refundable under this policy.

Limited 72 Hour Warranty on Health - If, in the opinion of your veterinarian, your puppy has any physical problem, which makes it a poor health risk, you may within three days of purchase, return the puppy to JonValer Labradors for a full refund or full credit towards another puppy. To make a claim under this provision, bring your puppy back to JonValer Labradors as quickly as possible after your veterinarian's examination. You must also bring a signed statement from your veterinarian showing the date, within the three day period, on which he conducted his examination and the reason why he believes the puppy to be a poor health risk. This statement must include a description of the symptoms supporting his opinion. Since it is your intention to return the puppy for refund or credit, your veterinarian should not provide any further immunizations or treatment for the puppy. Be assured that all necessary care will be provided after consultation with our veterinarian upon the puppy's return to JonValer Labradors. Worms/parasites are not covered under this clause, as they are a “normal” condition in young puppies. Your pup has had routine worming and you will need to continue your pup on a suitable worming protocol as suggested by your veterinarian.

Soundness Warranty - Understanding that no 100% guarantees are possible in dealing with living creatures and that not all problems are totally genetically caused, the seller, having in good conscience bred this litter from sound genetic stock, agrees to the following: If the puppy is diagnosed as having hip dysplasia, or heritable eye disease before the age of 25 mo., and the problem is severe enough to interfere with the dog's ability to function as a pet, seller will, after independent examination by a veterinarian of her choice, offer a replacement puppy out of the next available litter or refund the purchase price of the puppy. The buyer may keep the original dog, bearing the expense of any necessary treatment, or breeder will assist in placing the dog in another home if possible or dog may be returned to the breeder. Hip guarantee will be void if dog is subjected to excessive physical stress prior to 18 mo. of age, and/or is overweight or poorly conditioned, based on the observations of the breeder.

General Terms and Conditions -

1. You qualify for a refund or credit for another puppy only for the reasons and in the manner stated herein.
2. If you are eligible for a refund under these warranties, JonValer Labradors will refund your puppy's full purchase price by check within 15 days of receipt of all documentation substantiating your claim.
